

# YEAR 6 ORACY CHALLENGE (1)

## Interview with a family member

We have all had lots of time to talk this year, so let's harness the power of oracy... Today, you will take on the role of a TV presenter, interviewing the public about their life during lockdown. Choose one household member and record their answers to the following questions. You could come up with some questions of your own!

- *What is your name and where are you from?*
- *Has 2020 been a good year for you so far?*
- *How has your life changed this year compared to last year? Are these changes good or bad? Why?*
- *Have you developed any new skills or habits during lockdown? What are they?*
- *What have you learned from this experience?*
- *What are your hopes for the future?*
- *If you could send yourself a message for twenty years from now, what would it be?*

**With permission from a parent or carer, you could film yourself conducting the interview and watch yourself afterwards. What do you think of the way you speak during the interview? What went well? What could be improved? Write a short reflection on your oracy performance ready to take to school when you start at Maesteg!**
