MAESTEG SCHOOL

Dear Parent / Guardian,

Over the forthcoming weeks Maesteg School will be participating in a Health and Wellbeing Home School Survey. It's now more important than ever that we understand how our pupils are coping so that we are able to respond to their evolving health and wellbeing needs. The survey has been built by EduKit who have partnered with SchoolDash to offer a short anonymous pupil survey which takes approximately 3 minutes to complete and can be easily answered at home and on any device.

The short survey seeks to understand how our pupils are managing at home during the current situation. The answers given are anonymous but also allow pupils to add their name and any additional questions they may have at the end if they would like a teacher to contact them.

Our pupils' participation in this survey will allow us as a school to use its findings to help staff prepare accordingly for when pupils are back with us this summer term, they will also help us inform our health and wellbeing curriculum as well as guiding us when implementing further support where needed during this time. The survey link can be accessed via the school website, school twitter page and 'Show my Homework' platform.

We as a school are dedicated to ensuring that the wellbeing needs of our pupils are of the upmost priority and we hope that you will be happy for your child to support us in our on-going commitment to this.

If you have any concerns or wish to speak with myself further regarding the survey, please do not hesitate to notify the school reception as soon as possible to arrange contact.

Thank you, in anticipation of your support,

Jennie Heath

Deputy Director of Health and Wellbeing
